LIKE VINCI AND VIVALDI

FOR NOURISHING THE BODY AND THE MIND

WORD FROM THE CREATOR

”

*Often underestimated and taken for granted, **your furniture is nevertheless a big aspect of your daily life.** Appearance and release, opening after confinement, it will always be there for you. Like a truth, too long hidden, **Les Belles creations** is revelation. Excessively human, our fireplace tables warm, comfort and soothe all your worries away. **Treat yourself to its flames and let yourself be seduced.***

”

1 - LES BELLES CRÉATIONS

THE COMPAGNY :

Les Belles creations is a French family business that specializes in the conception and manufacture of designer furniture. Working mainly in a new field in the world of furniture, **Les Belles Créations is the pioneer in fireplace tables**. Indeed, by connecting these two pieces of furniture, we obtain a whole **new range of ergonomic, luxurious, ecological and innovative products** to furnish the homes and offices of tomorrow.

THE MATERIALS :

Our products and materials are 100% French. Each project we create is the result of over 150 hours of work. When we want to have a product that lasts over time, the choice of materials must be the first priority. It's for this reason that we collaborate with the company **I-Stone**, the specialist in **V-Korr** (Solid-Surface). For us, the environment is one of our concerns. Integrating ecological, sustainable and environmentally friendly materials is essential. V-Korr is a solid, non-porous material. **It is composed of 63% natural minerals, 35% arcylic resin and 2% pigments.** We work with V-Korr because this material meets the highest quality standards in every respect : **PERFORMANCE, MANUFACTURE, OPERATION & HYGIENE.**

THE HEAT :

Concerned about our ecological footprint, we chose **Bioethanol** as a means of combustion. Bioethanol is produced from **distilled beetroot juice** which gives an entirely natural green energy. **Bioethanol produces no smoke, no odor and no waste following its use.** We can therefore heat a space in the most suitable way for the future of our planet. The bioethanol fireplace is a method of heating **halfway between a stove and an ordinary fireplace.**

2 - EAT STANDING TABLE

W A R M P A T H

The Warmpath model is designed to decorate your office, kitchen, reception room or meeting room with luxury as admirable as it is practical. With a design as precise as it is meticulous, Warmpath catches the eye as much as it warms the heart.

The Warmpath is the first born of Les Belles créations. It took us more than **4 years** of studies and tests to offer you this atypical fireplace table. Its integrated fireplace model is fully thought out to be as elegant as it is safe. The Warmpath can accommodate between **4 and 6 guests**. In addition, the Warmpath can be created in a **range of 25 colors** to allow you to create the best possible arrangement for your room.

When it comes to heat, Warmpath produces excellent backup heat as it will raise the temperature of a room between 1 and 3 degrees in just 1 hour. For personalization, the distinguished design of the built-in fireplace must remain the same for safety reasons. However, we offer a multitude of options to make your creation one of a kind.

Dimensions : 2849mm x 750mm x 1081.1mm.
Heating power : 2000 watts

3 - CENTRAL ISLAND TABLE

AKATARINA

Warm hearted and friendly, Akatarina will warm up your special moments with your loved ones. The Akatarina table model is based on the classic look of a dining table.

Unlike its elder Warmpath, the dimensions of Akatarina can be fully customizable. So you have the opportunity to have a fireplace table that will be designed entirely according to your wishes and your available space. **Akatarina has a higher calorific power than that of the Warmpath and can easily heat a room of 30m².**

However, you can customize the number of fireplaces as well as their power to improve your heating experience. The basic model can seat **4 people**. As with all our creations, you have a **multitude of options** available to you to fulfill each of your desires regarding your new furniture.

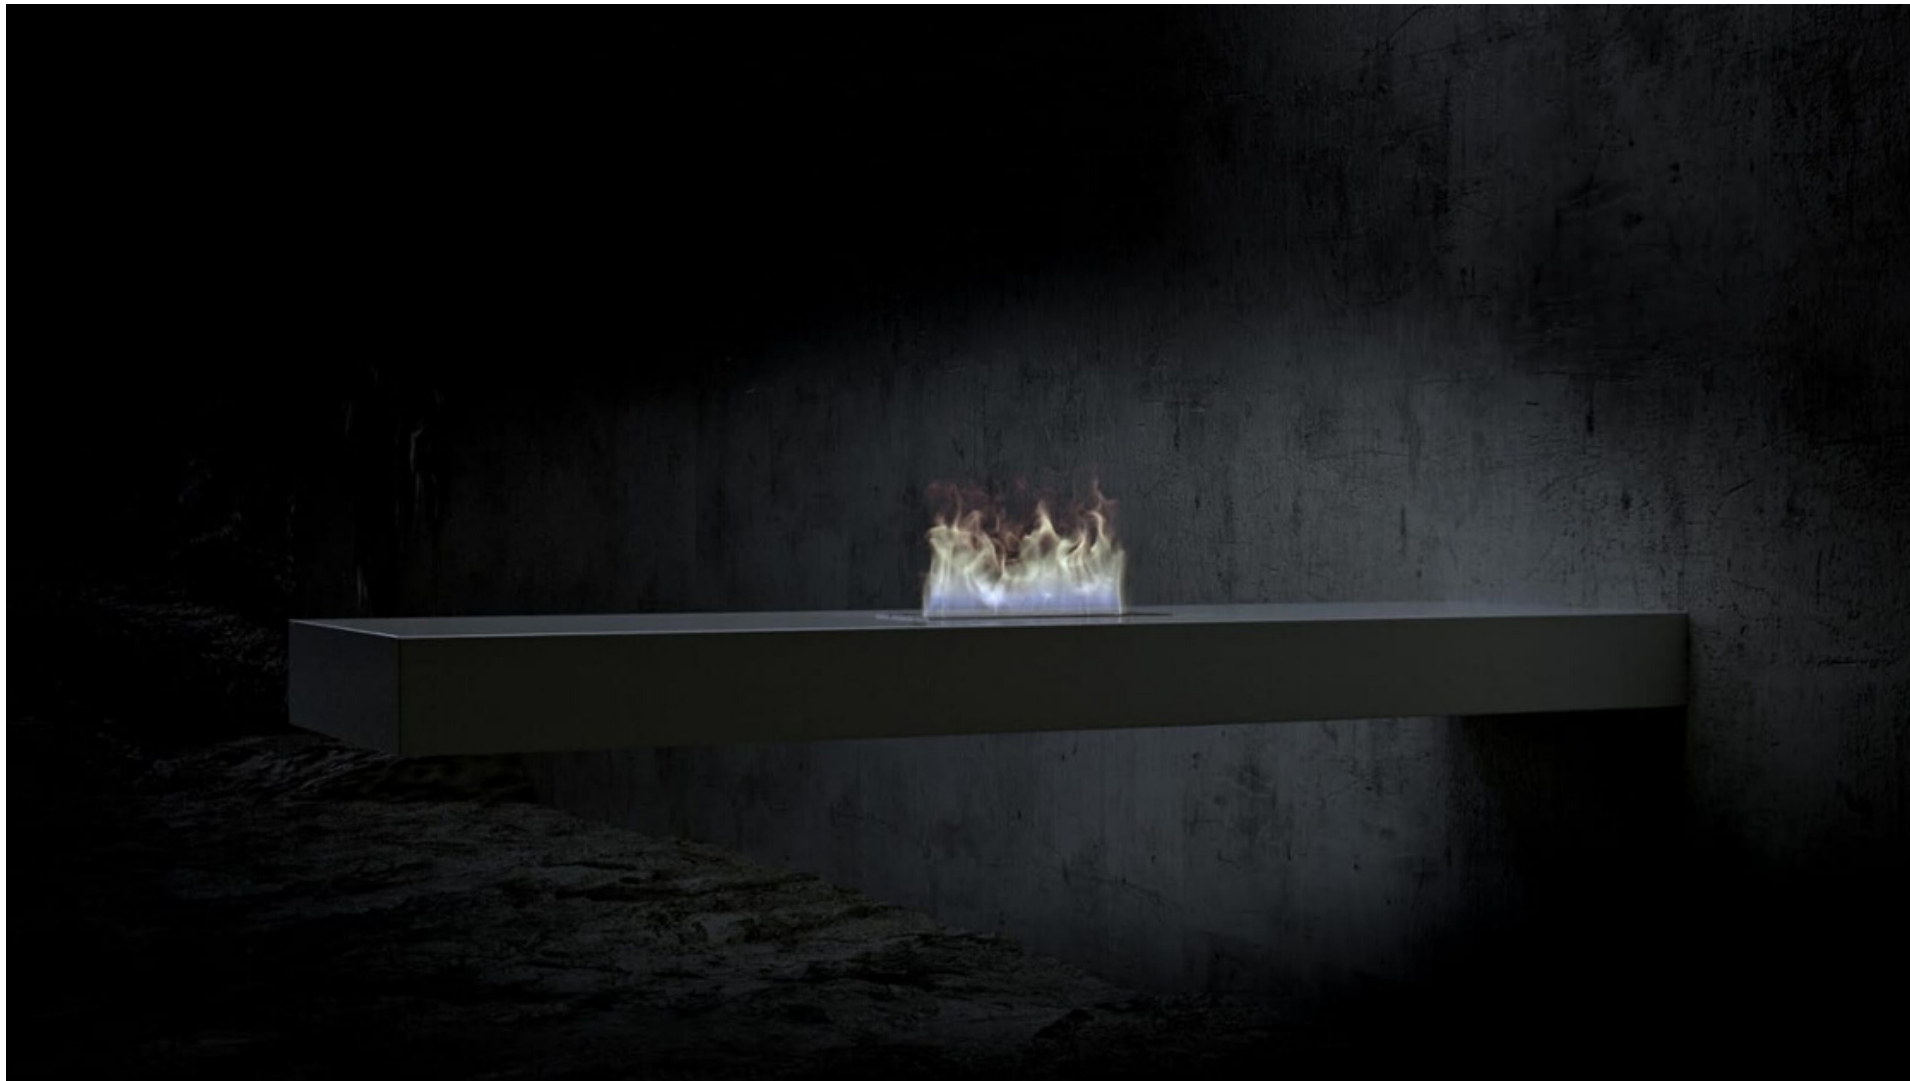

Dimension :

Table top : 2126 x 1078 x 100 mm / **Base :** 1076 x 950 x 730 mm

Heating power : 5000 watts

4 - CANTILEVER TABLE

SABRINA

Basic model :

Dimension : 2500mm x 760mm

Heating power : 5000 watts.

Sabrina is the youngest member of Les Belles Créations family. Its frameless design makes it unique in all its aspects. Of a more discreet but even more tenacious nature than its elders, Sabrina will allow you to concentrate well by staying warm with its model specially designed for small committees. Whether for your work team or for your family meals, Sabrina will keep an essential intimacy to allow you to enjoy each moment spent with your loved one.

Ergonomically designed to increase the efficiency of its users, Sabrina is the fireplace table that will furnish your future. Like her older sister Akatarina, Sabrina can also have **dimensions and a customizable fire**. You will therefore have a custom-made piece of furniture that will meet all your requirements as well as those of the room where Sabrina will be located. As with all our creations, you have a multitude of options available to you to fulfill each of your desires regarding your new furniture.
